

## SHE'S HOSTESS TO 13

Fannie Pinkhouse and Her Family

are not to be backed at.

A few days ago a mighty stork, gasping and wheezing from his great burden, paid Fannie a welcome call and left 13 puppies to support the arguments of their college mother. All of which made Fannie continue sneering at the blue-ribboned, blue blooded pets who stick their wet noses in the air and announce that "one pup and

a good one is all a mother is expected to contribute."

Of course there are certain problems that so large a family brings up. Thirteen pups all the same age and all hungry proved to be quite a problem. When it comes to feeding, Fannie is confronted by a difficulty. "But," says her owner, "she devised a sort of cafeteria system, and it works out nicely."

Pinkhouse thinks race suicide is a new kind of athletic event judging from her recent reaction to the problems of population.

As one of the leading matrons in Newark's canine society, Fannie's attitude toward the problems of the day

## WIFE KILLS SELF; MATE VOICELESS

Becomes Dumb When Sees Body in Noose

BALTIMORE, June 2.—Swinging from rafters in the cellar of her home, the body of Mrs. Grover Colston Ligon, 2600 Chelsea terrace, was found by her husband and brother, Mrs. Ligon had been dead probably four hours.

Members of the family could give no reason for Mrs. Ligon wishing to take her life. Her husband left the house at noon and the woman was last seen by her brother, Morton L. Ligon.

Mrs. Ligon formerly was Miss Elizabeth Gaines of Richmond, Va., coming to this city about ten years ago. She has been married eight years and has a son 6 years old.

The dead woman's husband was shocked into dumbness at the discovery. He is being treated by Dr. S. A. Dodds.

**Husband Left at Noon**  
According to the story told the police by Mr. Gaines, brother of the dead woman, Mr. Ligon left the house a little after noon to visit friends. About 2:30, Mr. Gaines said, he called at the house. His sister seemed to be in good spirits. He took his nephew, Grover Ligon, Jr., for an automobile ride and then to the Gaines' home for supper.

About 8 o'clock Mr. Ligon stopped at Mr. Gaines' home on the way home and his brother-in-law agreed to take the father and son home in his automobile.

Mr. Gaines said they were surprised to find the house dark upon their return but thought Mrs. Ligon must be visiting neighbors. Little Grover crawled through the window and opened the front door. Then he was sent to bed.

**He Finds Body**  
Several minutes later, Mr. Gaines told the police, he had occasion to go into the cellar. In the front end of the cellar he discovered the body. Several feet from the hanging body was a trunk. Upon this the police

## REORGANIZATION FOR P. A. REDMEN

New Officers To Be Installed MONDAY NIGHT

Reorganization of the Port Arthur tribe of Redmen under the name Cherokee Tribe, No. 51, and the installation of officers is announced for Monday night at 8 o'clock in the Macomber hall, 341 1/2 Procter street, officials in the organization said Saturday.

E. A. Dupre, of Beaumont, great senior saganmore, will be in Port Arthur for reorganization and installation meeting, and a full attendance of Port Arthur Redmen is urged for the occasion, the officials said. On June 12, a degree team from the Galveston tribe of Redmen will be in Beaumont to put on work of the order, and it is planned for the membership of Cherokee tribe to attend this meeting in a body.

Officers who are scheduled to be installed in Cherokee tribe here Monday night are Tom Collins, saganmore; C. V. Palmer, senior saganmore; Charles Wheeler, junior saganmore; Ed Stanton, prophet; T. A. Manly, chief of records and collector of wampum; and J. W. Hunter, keeper of wampum.

## PEPPLES ON TOUR TO

An overland trip to Bushman, Mich., where they will make their future home was begun Sunday morning by Mr. and Mrs. M. G. Pepples. They were accompanied by Mr. and Mrs. Emmet Roberts and family who will visit at Nevada, Mo.

## TARGET RANGE READY SOON

Field Officer Promises Early Action for Local Clubs

Port Arthur's rifle target range to be used by the 11th Engineers and the two local rifle and pistol clubs will be ready for use within the next two weeks.

This was made known in a statement by Major W. C. Parrish, of the second battalion, 11th Engineers, who spent Saturday afternoon with S. W. Clarke, field officer for the U. S. section opposite the power house and the Port Arthur plant mill, to be segregated from the Sabine reservation for this purpose.

**Canal Bridge Only Delay**  
Field Officer Clarke, who is cooperating with the local engineers of the 11th Engineers, assured them that the other departments would rush their work in the matter so that the range will be ready for use with the next few weeks.

Plans and specifications for the range will be worked out immediately and early use of the range will depend largely upon the operations of the canal bridge, which will enable the members of the clubs to reach the grounds.

"Our location is ideal," Major Parrish said. "The range is being so laid out as to offset any hazards to property or persons. Shooting will be done over the lake."

**Schedule Later**  
The schedule for use of the range is to be arranged later. The National guard will use it once a week, and the other organizations, which are divided into teams will use it the rest of the week, each team having a certain night.

"Being sponsored by the U. S. war department, it will aid materially in the carrying out of our program. One advantage of the location is that it is readily accessible. As soon as the bridge is in operation the teams will eliminate automobile parties," Mr. Parrish said in conclusion.

## MRS. JOE RENUA DIES SUDDENLY

Leaves Husband, Babe and Five Small Children

Mrs. Lillie Pearl Renua, 31 years, died Saturday afternoon about 1 o'clock at Mary Gates hospital after a brief illness. Mrs. Renua was the wife of Joe Renua, 845 West Fifth street, and had resided in Port Arthur for the past two years. She was a native of Johnson's Mines, Tennessee.

Surviving the deceased are her husband, an infant son, born Friday night at Mary Gates hospital, two daughters, Kay and Jeanette, and two other sons, Claude and Earl, all small children.

Pending the completion of funeral arrangements, the body is at the Granger Undertaking establishment. Mrs. Renua was a long member of the Church of Christ, and services probably will be conducted here Monday, after which the body will be shipped to Oklahoma for burial.

## NEW TIRES ARE LAIN IN URBAN ROADBED

Laying of new tires in the roadbed of the Eastern Texas Electric company's interurban tracks on Waco street, leading to the station, was practically completed Saturday.

Laying of the concrete base is expected to be started next week, which will complete the traction company's part in the paving of Waco street.

## Summer Violin Classes Announced by Kerns

A summer schedule for violin students in the Port Arthur school orchestra, starting Monday morning at 8 o'clock, is announced by Frank W. Kerns, orchestral instructor and director in the schools. Violinists in the Franklin and high school classes will meet on Monday and Thursday mornings at 8 o'clock in Franklin school, and the DeQueen school violin players on Tuesday and Friday mornings at 8 o'clock in DeQueen school. Director Kerns said, "The tuition for the summer instruction will be the same as throughout the past session, he said."

## HAMPTON'S TO OPEN NEW

Hampton's Hardware company, formerly of Delidder, La., which is moving in the former Kleas Drug company store on Procter street, plans to open its new store the latter part of next week, it was announced Saturday afternoon.

The interior of the store has been arranged to take care of the complete new stock of hardware supplies and accessories and sporting goods, the old stock having been disposed of in De Ridder.

Installation of the stock, which had been under way the greatest part of last week, was fast nearing completion Saturday, and unless unforeseen accidents occur the store is to be ready for occupancy between Tuesday and Thursday, members of the firm said Saturday afternoon.

## News Newsies Guests Of Nat on Mondays

Slimmy and Shorty, Slim and Tubby, and all the News newsies, seen from one end of Port Arthur to the other, are getting free swins in the Plaza Nat, every Monday morning, starting tomorrow.

This recreation feature for the kids is provided by F. E. Gifford and Milton S. Goss, managers of the Nat.

**EDWIN'S VISIT HERE**  
Ed and Mrs. C. E. Edwin of Beaumont, formerly of Port Arthur, were here Saturday night. Mr. Edwin was formerly city engineer and was connected with the engineering department at Beaumont.

## As Cool As A Cucumber and Sweet As A Peach

Keeping cool, comely and sweet in summer is principally a matter of personal cleanliness.

Every woman has her supply of summer washable dresses, designed to keep her cool and comfortable.

But if you heat up the house while somebody else washes them or take chances with away-from-home methods, your summer dresses defeat their purpose.

We'll keep them as clean and sweet as rain-off water and mild ivory soap can make them. We'll iron them perfectly and return them with each detail professionally finished—ready to wear.

Avoid your self of our splendid laundry service. Bundle these pretty summer dresses up each week and phone our driver to call.

## Hotel Register Shows Who's Who When it Comes to Big Industries

That Port Arthur is a place of business is attested by the register of the Plaza Hotel, which bears the names of representatives of practically every line of business.

"We have few tourists," the hotel clerk said in a statement to a News reporter. "Most of our guests are such who represent big institutions that have business to transact in Port Arthur. These men come from all parts of the country and represent enterprises and concerns of every description."

"While the number of important personages for the past week was rather small, the next few weeks will bring in the usual crowd and we expect a heavy run the entire summer."

## CURE FOR PARSIN

## To Save Millions On Patients

Chicago, Wis., June 1.—Millions of dollars will be saved on government institutions for the insane if successful treatment for parsin, a deadly disease and aftermath of influenza, is discovered.

A three and one-half year's experimentation with the new treatment at Wisconsin Psychiatric Institute, 23 committed patients have been discharged as cured and are now earning their livelihood. The average cost to the state of a parsin patient from the time of commitment to his death is \$5,000.

**77 Treated**  
Ninety-seven cases of men in all stages of parsin have been treated by the four Wisconsin specialists, W. F. Lorenz, A. Mowbray, W. J. Blackwell and F. J. Hedges and improvement was shown in practically every case.

Typhus is an arsenical drug discovered in 1917 by the Rockefeller Institute for medical research. The Chicago public health institute financed the research that led to the announcement of positively successful results.

Besides the Wisconsin Institute, Johns Hopkins hospital, Mayo Brothers and the Chicago public health institute have been applying the treatment successfully.

Dr. Lovejoy of the University of Wisconsin Medical School told the United Press today that the treatment is simple and probably will be less expensive than the other means used in combating parsin.

**Treatment Successful**  
The discoverers also recommended the drug to be used in syphilis when the patient is suffering from malnutrition or is past middle age. The treatment has not the destructive effect of the other arsenical drugs now used in treatment of syphilis. The drug is injected into the veins.

Parsin appears in approximately 5 per cent of syphilis victims, usually several years after the disease is apparently cured.

Complete loss of memory, tremors of the mouth and loss of mental ability are some of the results.

"We can't tell whether the treatment has been successful until the end of the patient's life," Dr. Lovejoy said, "but we know that we have been successful in putting many of our parsin patients back on their jobs earning a livelihood for their selves and their families."

## FINDS 18-INCH SNAKE IN CLEANING FROG

MOONVILLE, Ind., June 2.—The other night John Patterson was cleaning half a dozen frogs that his son Travis had brought home from a frog hunt the night before. There was one especially large one. When Patterson cut into it he found a water moccasin about one foot and a half long. The snake still showed signs of life, but Patterson did not waste any time in killing it.

### The Call of the Waves Echoes a Call for a New Bathing Suit

With Summer's first beckoning to the beach every woman is thinking of a new Bathing Suit. For instance, a black or cocoa colored Jersey with a long-sleeved straight top and knickers. For sheer distinctiveness, there is one in gray india print or of gingham with ruffled skirt. A more conservative choice might consist of the familiarly styled Jersey Suit that differs this season with newer colors and trimmings. There is fine quality in these suits from \$5.50 to \$12.50.

## Two Weddings of Wide Interest Are Scheduled To Take Place This Week

A June bride! The world does you homage. Chud in your bridal gown of white chiffon, embellished with Mechlin lace, and orange blossoms, you are indeed a loveliest thing. Only second in importance to your pretty self are your maids, frocked in adorable gowns of chiffon crepe, made in quaint basque style, with berthas of silk lace, wired hips and metallic ribbon trimming. The frocks in a rainbow of colors—orchid, rose, French blue, maize and April green—complete a charming picture.

And brides-to-be will have the right of way from now on to the close of June or later, there being several weddings listed for the early summer season, and each bride-elect to be extensively entertained.

Society has rushed from one thing to another the past week, and almost every hour has been filled with delightful affairs. Brides-elect vied with the "sweet girl graduates" for the center of the social stage, and many of the charming affairs of the week have centered around them.

Two weddings of unusual interest to wide circles of friends of both brides and grooms will take place this coming week.

On Monday morning at 10 o'clock Miss Bernice Arnett of Houston will become the bride of Capt. B. A. McGlavin of this city. The ceremony will be performed in Beaumont at the First Baptist church with Dr. A. E. Booth officiating.

Miss Arnett is a charming young woman and has a host of friends here. She has often visited in Port Arthur. Capt. McGlavin is physical instructor in Port Arthur schools and is also probation officer for Jefferson county. Capt. McGlavin and his bride will make their home in Griffling, after a honeymoon in New Orleans and other points.

ANOTHER WEDDING OF WIDE INTEREST in Port Arthur will take place on Wednesday evening at twilight, when Miss Alice Hanchett becomes the bride of Mr. Ne Cochran. The wedding will be solemnized at the First Congregational church with Rev. V. A. Godeby of the First M. E. Church, South, reading the service.

Miss Hanchett will wear an alluring gown of white georgette over satin, and will carry a beautiful bouquet of roses. There will be no attendants.

For the professional Prof. A. M. Culpepper will play Lohengrin's wedding march, and preceding the ceremony Miss Ethel King will sing "At Dawn." During the ceremony Mrs. Neal Dader will play very softly a violin solo, "Trauerlied," and as the bride party leaves the church Prof. Culpepper will play Mendelssohn's wedding march.

The church will be attractively adorned with a profusion of white gladioli and roses. The altar to be banked with palms and ferns and guarded by exquisite clusters of white gladioli.

Following the ceremony a reception will be held at the home of the bride's aunt, Mrs. Julia Hartman, 935 Sixth street, the personnel of guests including intimate friends and relatives of the young people. About 40 guests will attend the reception.

Mr. Cochran and his attractive bride will be at home to their host of friends here at 1020 DeQueen boulevard, where Mr. Cochran has furnished a delightful little home for his bride.

The affectionate interest of a host of friends centers around the wedding of these two young people as both are well known and popular here. Both are graduates of the Port Arthur high school and have been reared in Port Arthur.

Reverend Edward Chapman, Mayor Woodhouse, Jr., and Mary Ann Woodhouse.

MRS. E. J. ALLEN and CHILDREN of 2708 Throckmold street, Friday for Mobile, Ala., where they will spend about six weeks with relatives and friends.

THE MISSIONARY SOCIETY of the First Methodist Episcopal church, South, will meet in regular monthly business session Thursday afternoon at 2:30 o'clock at the church. All members of the Missionary Society are urged to be present.

THE PYTHIAN SISTERS WILL meet on Tuesday evening at the K. P. hall at 8 o'clock at which time the annual election of officers will be held.

The members of the drill team are requested to meet at the hall at 7 o'clock for drill rehearsal. It is hoped that all Pythian Sisters will be present Tuesday evening.

MRS. CHARLES STEELE GRACE, who entertained the members of the Houston Bridge Club Thursday evening at her home in the Model addition.

Beautiful roses and garden blossoms which graced the home for floral beauty suggested by their tint the color scheme of pink and white. These tints were shown in the bridge table appointments and all details of the affair.

Two tables of players enjoyed the games at the close of which Mrs. Rupert Theobald was awarded the prize for high score, and Mrs. Harold Winner the second trophy. A dainty ice course was offered after the games.

The personnel of players included Mrs. Harold Winter, Miss Lola Langridge, Mrs. Rupert Theobald, Miss Isabelle Todd, Mrs. Charles O'Neill, Mrs. Earl Rogers, Miss Florence Bush and Mrs. A. A. Gunter.

ONE OF THE SMARTEST and most distinctive affairs of the season was given in the late hours of the Thursday afternoon when Mr. and Mrs. Leonard Power entertained with a formal reception for teachers of the Franklin school at their home on Lake Shore drive.

Mr. Power, who was principal of Franklin school the past year, was recently elected president of the Port Arthur Business College.

In receiving line with Mr. and Mrs. Power were Mr. and Mrs. G. Sims, Mr. W. E. Davenport, Miss Carrie A. Terrier, Miss Wayne Young, and Mrs. H. K. Deason, who ushered the guests into an environment of much beauty, wherein were fragrant cape jasmynes massed in quaint jardiniere and filling crystal vases at vantage points about the reception hall and no less lovely ferns and green foliage in massed effect about the house presented a charming background for the attractive frocks of the guests who came to pay their respects to their host and hostess.

In the dining room the beautiful white blossoms gave additional floral adornment. The dining table, with madraida center, held the punch bowl, imbedded in an artistic profusion of arrangements fern and cape jasmynes. Mrs. Willard Davis presided over the supper service.

Members of the Franklin school faculty calling during the hours of receiving were Miss Mildred Day, Miss Bevis Lister, Mrs. Willard Davis, Miss Wayne Young, Mrs. H. K. Deason, Miss Carrie A. Terrier, Miss Jane Young, Miss Dolores Thibodeaux, Miss Cora Wilkins, Miss Ida B. Polk, Miss Leslie Harrison, Miss Katherine Bell, Miss Edith Bates, Miss Wilma Christian, Miss Leola B. E. Davenport, Miss Geraldine Blanche Moore, Miss Della Smith, Miss Nella Cockrum, Miss Apha Todd, Miss Vera E. Hawley, Miss Myrtle Nells, Miss Gladys Baker, and Miss Lila Mae Hanchett.

ROY HADDINS OF HOUSTON is visiting with friends in the city.

DR. AND MRS. S. D. WALL OF 1501 Eighth street have as their guests, Mrs. Wall's aunt, Mrs. L. M. Blackburn of Lake Charles, La., and Miss Louise Allison of Houston.

MISS FRANCES ALEXANDER, who has been studying at Columbia University the past year, has returned from New York to spend a few days here with her mother, Mrs. E. J. Alexander of 1501 Eighth street, before going to Huntsville where she will teach at the Normal this summer.

MRS. EDGAR WOODHOUSE charmingly entertained on Friday afternoon at her home 1218 Fifth street, with a pleasing birthday party in celebration of the seventh birthday of her little daughter, Mary Ann.

A delicate pink motif was featured in the decorations of the home and reflected in the lovely sweet peas and zinnias, which gave floral charm to the rooms. In the dining room, the table, covered with a lovely Batteberg center underlaid with pink, was entered with a handsome chandelier, holding pink tapers. The birthday cake, on which gleamed seven pink candles, was decorated with pink ribbons.

Amusing games and contests were enjoyed during the afternoon, and several kodak pictures of the kiddies were taken. Delicious refreshments of punch and cake, candies and marshmallows were served the little folks, and each was presented with a pretty favor. Many lovely gifts were received by little Mary Ann.

Mrs. Woodhouse was assisted in entertaining the kiddies by Mrs. E. R. Clemens, Mrs. Carrie Currie, Mrs. Frank Smith, and Mrs. W. J. Hunt. Those participating in the birthday celebration were Marian Deuster, Edna Margaret Stovall, Jean Audrey, Edna Beale, Ida Mae Audrey, Jack Noble, Katherine Hunt, Lucille Hanson, Janice Potter, Mary Evelyn Dunn, Hannah Frances Smith, Frank Smith, Jr., Joy Strivener, Helen Bishop, Bonnie Lee Aycock, James Barnes, H. BAN TEXTBOOKS  
IF PRO-BRITISH

Wisconsin Passes Drastic  
Enactment

MADISON, Wis., June 2.—History textbooks will be banished from the public high and graded schools of Wisconsin if, after due legal hearings, they are found guilty of casting aspersions on the names of traditional heroes of the American Revolution and the War of 1812.

The first important law passed by the 1923 legislature, just signed by Gov. John F. Blaine, forbids the use of such books in the schools, and prescribes the methods of court martial to be given the accused books.

State Senator John Cashman, author of the law, declared that it is aimed at "pro-British sentiment" which he says is strongly expressed in a half-dozen standard texts used over the nation.

**Trial on Petition**  
Any textbook is "called before the bar of justice" by the petition of five voters of any school district, a public hearing being held on the charges by the state superintendent of public instruction or his representative.

If the representative of the Wisconsin state department judges after the hearing, that the book casts slurs at the nation's heroes, the state department is required to issue an order banning the book from all public schools of the state.

Cashman declared that since the war a flood of "pro-British propaganda" has inundated the country, most of the instances he cited as "disloyal quotations" came from recent revisions of texts.

Cashman in arguing for his bill, attacked the London Times, the Carnegie foundation and the Rhodes scholarships as "insidious propaganda in favor of an entanglement of this nation with the British empire."

**Attacks Carnegie Foundations**  
The Carnegie fund of more than \$25,000 for pensioning professors, Cashman said, was "un-American" and aimed at the same end.

He quoted Andrew Carnegie, who left the teachers' pension fund, as saying that "the sun in the sky in heaven once shone upon Britons and Americans united, so surely is it one morning to rise, shine upon and greet again the Re-United States, the British-American Union."

He also assailed the London Times, for an "American issue" printed July 4, 1919, and sent to every editor in America, which "urged an efficient propaganda to mobilize the press, stage, cinema, write books and articles, and revise histories and text books—the end in view being that the public may subconsciously absorb the fundamentals of a complete mutual understanding."

**"Pro-British Text-Books"**  
"One of these 'pro-British' text-books can do more harm in ten months than a hundred shiploads of reds could do in ten years," Cashman said on the floor of the senate.

"There is no room in these books for Nathan Hale, whose only regret on the British scaffold was that he had but one life to give to his country, no room for Anthony Wayne, who, when he fell wounded, ordered his aides to carry him so that he might die at the head of his column, no room for Gen. Francis Marion and the leaders who delivered the Carolinas from the British; no room for Betsy Ross and the birth of the American flag; no room for Francis Hall, the guide of Albert, no room for the words of the dying Lawrence, 'Don't give up the ship.'"

Cashman's bill was passed by both houses of the legislature with less than a dozen votes in opposition, and was signed immediately by Governor Blaine.

Houston Negro Raises  
One Dollar Bill Into  
Eleven; Is Wiser Now

HOUSTON, June 2.—"What's in a name?" asks C. G. McGraw, husky Bertillon expert, for the Houston police department, and then answers his own question by adding, "Nothing."

"Criminals have a habit of changing their names each time they are arrested," McGraw said. "And sometimes a peculiar trait in the criminal's mental makeup is revealed."

One man recently gave his name as John Jacob Astor and a negro chicken thief signed "Grover Cleveland" with more or less of a flourish.

There are some 25 "George Washingtons" on file and "Mac" says that Abe Lincoln and Andrew Jackson are very popular.

"Eleven Dollar Bill" is the moniker of a negro burglar who went in for "bill raising." His first attempt, according to McGraw, was that of raising a one dollar bill to an eleven.

"We don't care what name they give," declared the finger print expert. "We go by finger prints and they can't change them without leaving a scar which would be easily identified."

AGRARIAN LAW IS BIG  
FAILURE, SAY FASCISTI

MEXICO CITY, June 2.—Application of the agrarian law in Mexico to date has been a complete failure, according to the fascisti.

"It has decreased production to such an extent that it threatens hunger which has already begun," a statement issued by that organization read.

The fascisti has announced that it is "absolutely in favor" of a reform of Article 27 and 123 of the constitution which are the articles which have caused so much controversy between the United States and Mexico.

"The party will work without cessation to obtain the reform of these articles," G. Suarez de Steilly, founder of the organization here, told the United Press.

"We will work for this reform in a practical manner which will completely satisfy vested interests without injuring the interests of the nation," he stated.

## Make America Mutual is Their Slogan

MRS. JOHN F. LYONS

ASHLEYVILLE, N. C., June 2.—Every home a music center! Every American a music lover.

These will be the watchwords of the country's first "All-American" music convention to be held here June 9-17, with approximately 1100 delegates of the National Federation of Music Clubs in attendance.

American compositions will be used. American artists will perform. And even an All-American symphony orchestra will play.

The convention will mark 25 years of earnest effort to create a distinct

PARIS 'CITY OF DEAD'

PARIS, June 2.—The Paris catacombs—the famous subterranean city of the dead—recently reopened after being closed throughout the war, are again becoming one of the show-places of Paris. Stories of Americans make the trip through the weird underground vaults. The last labyrinthine corridors cut from stone hold the skeletons of more than three million persons who have died in Paris during several centuries. Nowhere in modern civilization have the remains of the dead been employed on such a scale for ornamental and show purposes. Hundreds of thousands of skulls, arms and leg bones are arranged in artistic patterns and mosaic on the walls. In other corridors the bones and skulls are piled neatly in square piles. On one wall is a great spider, its body formed of skulls, the legs of leg bones.

MEN MORE TUBERCULAR

CHICAGO, June 2.—Tuberculosis is more prevalent among males than females, according to W. A. Fraser, head of the Woodmen of the World. "The proportion of those afflicted with the white plague is about 105 males to 100 females throughout the United States," said Fraser. "The proportion of deaths is about 128 males to 100 females. There has been little change in this proportion between the sexes for many years."

5,000,000 FRENCHMEN PAST 60 YEARS OLD

PARIS, June 2.—More than 10 per cent of the population of France has reached the age of 60. In other words, the republic has nearly 5,000,000 men and women who have passed the three-score mark.

CROWDED POUND ASKS PUBLIC TO TAKE DOGS

LONDON, June 2.—A call has been sent out from the Lexington pound on the Old Frankfort Pike asking for homes for some of the dogs quarantined there. All kinds of dogs, collies, terriers, bull dogs and just plain bangers are being held for new owners.

Escaped Convict Gets Judge Appointment

BUENOS AIRES, June 2.—An escaped convict should not act as a magistrate is the belief of the people of the territory of the Pampa Central.

There is no Arsene Lupin story in the appointment of a man escaped from state prison to the post of judge of the township of Monte Nevado, an important agricultural community. The appointee did not falsify his documents, he had not changed his name, nor had he redeemed by a long, honest Valjean life his former more or

"A Music Club for Every Town," has been the cry throughout these past years. And Mrs. John F. Lyons of Port Worth, Texas, president, and other officials say there will be no slackening in the years to come.

"It is not always necessary to turn to foreign art for the most beautiful in music," Mrs. Lyons says. "Our country is young, which is probably responsible for the tendency to think of music and art in European terms. But no more will this be true."

"Our federation has constantly striven to encourage the young artist and to support American composers. And these two features of our work probably will be the outstanding points of interest at the coming convention."

# Summer Suits That Greet Warmer Days

We are now ready to show you a selection of summer suits that will meet every man's need

You can wear the kind of clothes you wish in weights, patterns, shades and styles that are particularly adapted to the long summer season here. Let us show you the complete line tomorrow.

THERE are tropical woads that carry all the style of year around clothes, yet they are cool and comfortable as well as shapely and good looking. At prices from \$25 to \$45 you'll find the suit you wish.

THEN there are those mo-hair suits in black, plain and fancy weaves at \$15 to \$32.50. No suit is more comfortable for summer, especially favored by the conservative dresser.

SEERSUCKERS and Spanish linen finish suits are extremely popular in small checks, neat stripes and solids—in shades of blues and tans, \$11—guaranteed pre-shrunk and altered to fit the purchaser.

# Scouting With —The— BOY SCOUTS

**TROOP 3, SEA SCOUTS**  
Coxswain Henry Larsen called the meeting to order. We repeated the Scouts oath. The roll was called by the yeoman and 30 cents in dues were collected. Skipper Roy took the floor and gave us a talk. He told all boys who were going to camp to be on hand at the Lions Park Thursday morning at 7 o'clock, as they were to be the advance guard to fix up the camp. He gave them other instructions as to the Scout camp, the Sea Scouts going to summer camp are Henry Larsen, Harvey Winger, Phil Richards, Earl Friedman, Owen King and Walter O'Neal of Crew 1. The boys in Crew 2 were undecided last Tuesday. One of our Sea Scouts will graduate from high school this year.  
WILLIAM JAMES, Yeoman.

**TROOP 6**  
Troop 6 had a combined meeting with troop 15 and 17. The hall was packed to the door and those that got seats were lucky.

Scoutmaster Kent made a few announcements about summer camp. After that the drums and bugles were assigned to the Scouts who would use them in the parade. Say, Scouts, didn't those drums look fine. Those in Troop 6 who had the honor to be first to use the drums are Arthur Babin and Alton Beadle. Milton Quebedeaux and Howell Hies were assigned the new bugles. These boys will not keep the drums and bugles until the buglers have qualified for their merit badge and the drummers have to give satisfactory evidence that they know how to play. Those going to summer camp will have a better chance than the others because they will be given training on there.

Wednesday we were right there on time for the parade. All Scouts met at the hall where they got the drums and flags. When the drummer started their drums you could not but hear yourself talk. From the hall we marched to the K. C. S. depot where we joined in the parade. That's where the drummers strutted their stuff. Those that didn't keep step must have had sore feet.

Friday night all Scouts who were going to camp brought their luggage to the hall to be inspected. Any one there can tell you it sure was a busy scene. The Scouts unpacked the luggage which was carefully gone over by the Scoutmasters. Then came trouble. Maybe mothers could fix the packs at home but Scoutmaster started he found it no easy job. But when a Scout says "it will be done," it and in about 15 minutes everything was packed ready for good old summer camp.

Well, Fats, I guess we will have to put a safety device on your cot to keep it from collapsing. Anyway, I don't want to stay in your tent.  
Say, did you notice our bulletin board on the outside of the hall. Thanks, Arthur, it sure is nifty. Every Scout going to camp should be at room 104 at the Franklin school where we will receive instructions.  
LEONARD STANBURY, Scribe.

**TROOP 15**  
Troops 6, 15 and 17 held a special meeting at the Knights of Columbus hall. The meeting started by repeating the Scout oath. The scribe then called roll for Troop 15. After roll call Mr. Kent gave us a talk and he said that the K. C. S. troops had received their drums and bugles and that they would be given out. He also said that we had received new camp equipment. Capt. Senley was then called upon to give out the drums and bugles for Troop 6. Arthur Babin received one drum and Alton Beadle the other, while Howell Hies and Milton Quebedeaux received the bugles. Leslie Seales were picked to beat the drums while Francis Baderen and Theodore Jurasek were picked for the bugles. James Billeaud and Rene Lambert to beat the drum for Troop 17 and Eddie Bellot and August Nees were picked to blow the bugles.  
After a few more announcements and we had pledged to the flag and we were dismissed. The drum and bugle corps remained for a little practice.  
Wednesday afternoon the three troops met again at the K. C. hall and from there we marched down to the K. C. S. depot where we were to start for the parade. The drum corps came out and kept time for the Scouts. After the parade over of the Scouts returned to the Knights of Columbus hall where they saw the flag while Fred Foxout played retreat.  
Friday afternoon the Scouts who are going to camp met at Franklin school and were examined by doctors to see if they could go to camp.  
Friday night at 7:30 we met again at the K. C. hall and there we had our packs examined to see that nothing was omitted that we might need at camp.  
Sunday at 1:30 the Scouts from Troop 15 who are going to camp will meet in room 204 of the Franklin school.  
RANDOLPH PAPICH, Scribe.

**TROOP 14**  
Troop 14 held its regular meeting at the Congregational church. We had 14 boys up to meeting. Captain Nick talked to us about camp and the orders we would have to obey out there. Captain Nick told us that after we came back from camp we would have a swimming party. We had a short meeting and broke up about 9 o'clock.  
OTHEL GANTT, Scribe.

**TROOP 17**  
Our baseball game with Troop 15 was not won because there was only about three boys from Troop 17 playing. The team that was playing them was chiefly composed of boys from Troop 6. That shows that Troop 6 ought to be easy for us to beat. At 10 o'clock, the scheduled time, all of our team was there; seeing no Troop 15 boys coming they grew impatient and all but three went home. The next time we have a game scheduled we hope that the opposing team will

## Sousa's Nemesis

When John Philip Sousa is ready to retire, another Philip will be ready to take up the "march king's" baton. Robert Philip Carpenter is only 3, but he directs a 60-piece band in Pueblo, Colo. Pupils of the kindergarten classes of Lake View and Carlisle schools are the players.

be there on time.

We had a combined meeting of three combined troops, 6, 15 and 17. We expected to go swimming but being unable to get the Franklin pool we changed it to a meeting. This was really Troop 15's meeting night. He opened the meeting by having us say the Scout oath. After this the roll call was called. We noticed that they had a good way to answer the roll call. When a Scout's name would be called he would stand and answer "here" and then he would tell a good turn which he had done during the week. Scoutmaster Kent complimented them on the way they handled the good turns. He said, "Scouting is based upon good turns. Of course we do good turns, but have a different system of letting our Scoutmasters know about it. We hand in our good turns written. By the way Mr. Kent speaks we are going to do it like Troop 15 does."

Scoutmaster Senley of Troop 6 appointed two buglers from his troop and gave them each a bugle. He also appointed two drummers and gave them each a drum. Scoutmaster Dapich followed his example, and so did Scoutmaster Kent. These drums and bugles are not permanent property, however, until the present owner shows his skill by passing a Merit Badge in same. We closed the meeting about 8:30 by saying the "pledge of Allegiance."

Wednesday, being Memorial Day, we met at the hall about 4:15 o'clock for the purpose of going to the parade. At 4:30 we marched to the K. C. S. depot and got in line in the parade. The parade marched to the Memorial library where we heard some good speeches about Memorial Day. We broke up by having the band play the "Star Spangled Banner".  
On account of the boys feeling kind of tired we did not have our weekly meeting Wednesday.  
MURRAY MCCOY, Scribe.

Troop 16 had its meeting Tuesday, May 29, 1935, at the regular meeting place at 7 p. m.  
The meeting was called on time and the roll was called. The roll showed that there were 15 boys present.  
Next, the Scoutmaster, Mr. Johnston, had the Scouts drill some. Then he put the marching touches on us for the parade which was to be on Wednesday. At 8:30 o'clock the meeting was adjourned.  
The next meeting will be a swim in the Franklin pool, Friday night at 7 o'clock.

## GOOSE CHASES DEPUTY FROM OWNER'S YARD

ARKION, Ohio, June 2.—Bates, a rounckneck bootlegger, says (time than a gauger, says Norman Gilbert, Summit County deputy sheriff, as he recounted a recent experience. The sheriff sent Gilbert to an isolated section of the county to serve some papers.

While knocking at the kitchen door he heard a voice inside say "Get him!"  
Then he felt a blow in the back. Turning he saw a huge gander—"the biggest goose in the world," he asserts. The bird chased the officer back to where his car was parked, a half mile from the house, and on the way snagged a large piece of cloth from the seat of Gilbert's trousers. He clunk to him until the officer climbed on the running board and then hived a scowling farewell, as Gilbert drove away with the muffer open.  
The papers were not served.

## OLDEST NEWSPAPER IN U. S. TO SUSPEND

NEW YORK, June 2.—The oldest newspaper in America, the Globe and Commercial Advertiser, will pass out of existence next Monday, it was announced by Frank A. Munsey, who bought the paper a few days ago. On that date, it will be merged with the New York Sun, already owned and published by Munsey.  
For the present the name of the consolidated paper will be the Sun and the Globe.  
The Globe and Commercial Advertiser was founded in 1793.

## Seagull Saves Purse Of Skipper Lost at Sea

VINEYARD HAVEN, Mass., June 2.—A seagull has salvaged the pocketbook of Captain Daniel J. Miller, Jr., of Bath, Me., who was saved after his command, the collier Seaconnet, sank in Vineyard Sound April 20, with a loss of seven lives.  
Edward Dalen, a fisherman, was crossing the sound when he noticed a gull pick up an object from the sea and drop it.  
Dalen investigated and found the pocketbook with identification card included.

## GUNMEN PROTECT RESORT WINNERS

Act as Police When Bandits Refuse to 'Lay Off'

PHILADELPHIA, June 2.—Gunmen, who boast of rackets on the handles of their automatic pistols, are now acting as "police" for gambling house proprietors, to the patrons of "Lucky Luck" can go to the houses of chance feeling secure they might carry away possible winnings without molestation.

This unusual situation was brought about when bandits opened an organized war against gambling house winners. The thugs made it their business to have lookouts watch crap, faro and stud-poker tables, selecting heavy winners, and placing a gang upon their trail.

Orders to "lay off" were issued to the "get-out-of-gate" as the highway-men are known, was issued by gambling house owners. The bandits, however, failed to "lay off" and the gambling business faced disruption.

Gambling house proprietors then began recruiting of their own private police force of killers to enforce the order.

"High-jack" men, as players are known locally, feared to walk into the places of chance because of frequent hold-ups and robberies of winners, and the embarrassment of explaining to the police.

When you win any dough in my joint, I'll see that you tote it home and tuck it under your pillow without any stick-up," is the slogan now of the proprietors. "Of course," they add, "my boys can't save the coin for you if your wife knows you have it."

The first known "official" act of the police occurred recently when a man, prominent socially, suggested to friends at a dinner dance that they go slumming. The party entered a cafe bedecked in jewels. Recognizing the guests, the manager of the cafe realized what would befall him should these distinguished guests be robbed. He summoned a squad of "gunmen police." The "police" were placed at every exit and at tables surrounding the party. Each "policeman" was carrying a heavy automatic under his arm.

Nothing occurred. The party departed quietly from the cafe. Silently, a dozen gunmen acted as an escort. To this day the party is unconscious of the fact that on their return trip to the Ritz-Carlton Hotel they were surrounded by protectors.

## The First Victim

James Harrington, better known in the underworld as "Two Gun" and "Bug Nose," was the first victim of the war between gamblers and bandits. Harrington entered a gambling house recently and presented to the owner a list containing the name of virtually every gambling establishment in the city, with a sum each was expected to contribute marked. Harrington is said to have declared the money was to be used to retain a criminal lawyer to start habeas corpus proceedings for bandits held for robbing a gambling house patron. The gambler refused to contribute. Harrington was ejected.

Shortly after that incident "Bug Nose" was shot down as he left a cafe. The murderer of Harrington fired the fatal shot from the opposite side of the street and escaped in a waiting automobile.

Members of the "murder squad" of the detective bureau are now on their toes anticipating further killings. Additional police have been stationed in the gambling district.

## Heroic Guards of Beacon Risk Lives To Save Vessels

LONDON, June 2.—Bishop's Light, rising from a foundation of jagged rock near the Scilly Islands, welcomes east-bound liners to the English channel, and at the same time gives grim warning of the nearby labyrinth of dangers. It stands guard over waters where rest the skeletons of more shipwrecks than in any other marine graveyard of the world.

The light is 160 feet above the sea level, yet the waves that break forever at the base of the rock constantly dash over its topmost masonry. So trying is the service at Bishop's Light that the three tenders are given frequent vacations ashore. Two months of duty with one month ashore is the rule.

During a recent spring storm the beams from Bishop's Light came near falling. The light weighs several tons and revolves on supports resting in a circular trough of mercury, balanced so delicately a child may turn it by a touch of the finger. On this night, the tower was so shaken by the heavy seas that much of the mercury was spilled out over the concrete floor of the light chamber. The three gunnells fell on their knees, cramped up the mercury in their hands and poured it back into the trough. Pursuing active puddles of quicksilver around a rough cement floor was not easy nor rapid work, and they finished finally with torn and bleeding hands.

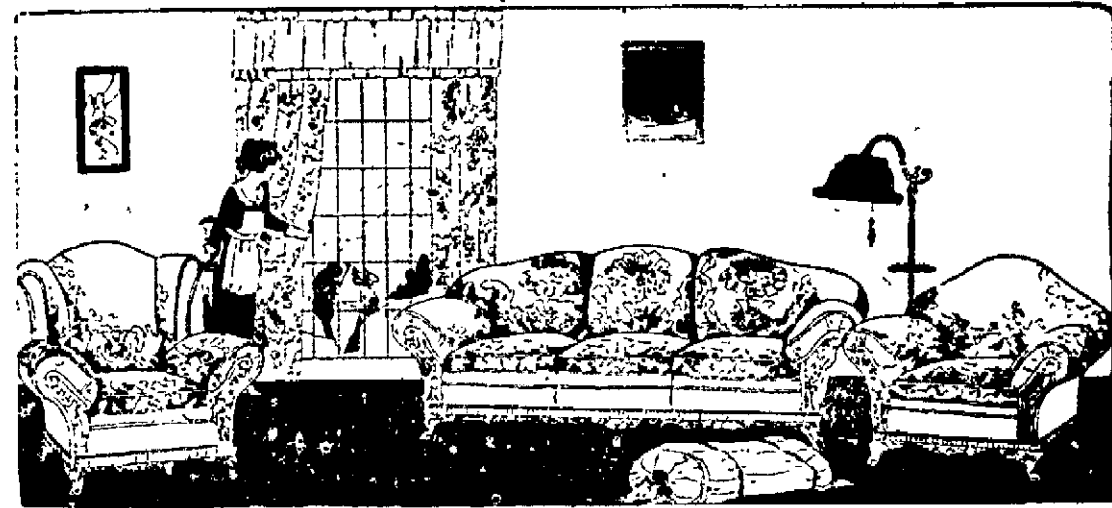

If the tower at Bishop's Light ever crumbles the keepers there will not have the faintest chance for their lives. There is not even a foothold on the rough, slimy rocks below them.

## SAYS STRAP HANGING IS GOOD EXERCISE

LONDON, June 2.—No matter what your pet aversion is, if you live long enough you will find out it's good for you. Now comes Sir Bruce Forster, one of England's most famous physicians, saying strap-hanging is beneficial. It exercises the arms and legs alike, he says. "And besides, there is the mental pleasure of realizing our gallantry when we give our seat to a tired girl or woman."

# You Buy Other Necessities On Credit —Why Not Furniture? A Dollar Down Will Do

You know, folks, everyone uses credit. The wealthiest people use their credit. Credit is the biggest asset you can have. It is what makes the world go round. And you do no doubt use your credit when buying groceries, meat, an automobile, a home, a piano, or most anything else. Well, why not apply the same principle to your furniture buying? Why pay cash or big payments when Scott & Waller stand ready at any time to give you cheerful credit? We keep hammering that fact home in all our ads—"Bring a dollar and get what furniture you want." Can we do any more than that? And can you do any better than that any where? You know you can't, so why hesitate? Your neighbors are furnishing their homes with the highest quality furniture by using our easy terms. Maybe you didn't know that. Of course not, because our terms and dealings are strictly confidential. Drop in this week and talk it over.

Charlotte sometimes allows weeks to pass without exchanging a word with those about her. Thanks to her Austrian nationality, acquired by marriage and only renounced in 1922, the princess' domain was left inviolate during the war, and she herself was kept in complete ignorance of the tragic turn taken by political events. No German or Austrian officer ever entered the gates of Bouclout, and no requisitions were ever effected there.

Highly accomplished and loving adventure, Charlotte, seeing her husband threatened by plots which were largely due to the harsh measures he had taken to nip the Mexican insurrectionary movement in the bud, threw aside all formal diplomatic methods, and journeyed to Europe to implore Napoleon to send instant reinforcements to Mexico. Her mission was fruitless.

**Husband Was Shot**  
In the meantime, her unfortunate husband, waiting for the troops that never arrived, found himself unable to cope with the growing tide of insurrection. Taken prisoner at Queretaro, he was shot there by the insurrectionists on June 10, 1867.

As a member of the Austrian imperial family, the princess, on becoming inmate, was automatically made a ward under the guardianship of the Emperor of Austria. Then the King of the Belgians, Leopold II, having volunteered to provide his sister with a home fitted to her royal station, the guardianship was transferred to him, by solemn treaty. Since that time, the princess has been an exile at Bouclout, a few miles from Brussels.

## Rat and Clam Fight Battle; Clam Victor

WASHINGTON, D. C., June 2.—A rat and a clam fought a battle within the confines of the national capital shortly before midnight, and so clamorous was the combat that the police were called out to stop it.

It happened in an oyster house. A passing pedestrian heard the squeaking of the rat within the closed and darkened restaurant. He phoned the police that burglars were drilling a safe in the oyster house.

The police came on the double quick, but they found only the rat and the clam. The clam had a tail-hold on the rat. A burly cop clubbed the rodent to death and tossed it into an alley, but he left its tail in the clam's deadly grasp. "Just to convince the damn thing she won the fight," he said.

## SEELER DIES OF STROKE; LONG ILL

Resident Here Six Years; Funeral Today

Harry Seelen, age 63 years, died at the family residence, 323 Fifth street, at 10:30 Saturday morning, after a seven weeks' illness of paralysis.

Seelen, who was an employe of the Gulf Refining company, came to Port Arthur from Galveston six years ago and was well known at his place of employment.

Funeral services will be held at the home at one o'clock Sunday afternoon, Rev. William Oeschger officiating. The body will then be shipped to Houston where interment will take place under the auspices of the W. O. W.

Seelen is survived by his widow, one son, Robert H. Seelen of Port Arthur, four step-sons and one step-daughter. They are: Edward, Clifton and Jettie Davis of Port Arthur.

Raymond Davis of Port Worth, and Miss Mary Allen Davis of Anderson, Texas.

His step-son Raymond, is in the Masonic home at Fort Worth.

## Stored Eggs Hatch Out Chicks Near Bonham

TELEPHONE, Texas, June 2.—In the summer of 1922 a merchant here shipped a case of hens' eggs to a dealer in Bonham, this state. The Bonham buyer candled the eggs, but three dozen from the case were not considered fit for sale or to eat. So he set them aside in a storeroom and they remained there during part of last summer, and throughout the fall and winter, just ended.

A day or two ago, without a single egg being turned over or even being touched, and without a hen to shield them from low and changing temperature, the eggs have begun to hatch out. Already there are four little chicks that came from the stored eggs and it is believed that more will hatch out during the week.

All of this is vouched for by a Telephone citizen who has just returned from Bonham, where he was called on a matter of business.

# FORD IS NEARING 6,700 CARS DAY

Mark Exceeds Best Past  
Record By 43

Moving steadily up to a 6,700 car a day production, the Ford Motor company on Monday, May 21, set a new daily record when 6,658 cars and trucks were completely assembled for domestic use, it is announced by the Ford News.

This new production mark exceeds by 43 the best previous day which was May 11 with its record of 6,615. Since the first of the year all the resources of the Ford Motor company have been utilized to keep production on a continually increasing schedule but orders all along have been far in excess of the output and continue to be, even under the present record-breaking output.

The Lincoln division of the Ford Motor company produced 171 cars during the week ending Tuesday.

## WAKING MONEY IS AN EASY THING ON RHINE

REHLENS, June 2.—Germany printed a trillion marks a week—and then talks of stabilization. Figures made public for a recent week show that in six short days the Reichsbank threw into the market 440,000,000,000 marks, bringing the total in circulation to nearly 7,000,000,000,000. And by the time this printed bill further increases will be reported.

And the weekly output is increased each week as much facilities will be put—forty-four private printers, already assisting the Reichsbank in printing paper money—so that in a short while the weekly output will climb to a trillion and more. Germany is now printing each week more paper money than she had in circulation altogether in September of last year.

## PRETTY GIRL IS GUIDE FOR TOURISTS IN PARIS

PARIS, June 2.—Beautiful girl guides for American tourists is the new enterprise here. Philip Caruthers, an artist, had the idea that a lot of Americans coming over to "do" Paris would rather have a pretty girl, dressed in the latest fashion, than by a bearded professional who uses a megaphone and mells of beer. So he established a register of girls willing to be escorts. An American visiting him at the Cafe Rotonde, artists' cafe in the Latin Quarter, is shown a list of names, against which is a notation showing the girl's age, whether she is blonde or brunette, what color her eyes are, whether she can drive an automobile, and what her specialty is. The specialties vary. Changes vary, too, according to the beauty of the guide.

## Yellow Sheets of 1822 Tell Romantic Story of Capitol

Ancient Directory Lists 2238  
Names of Day When Senators  
Lived in Humble  
Boarding Houses

WASHINGTON, June 2.—A vivid, picturesque picture of the humble village that constituted the national capital a century ago is portrayed by a Washington city directory of 1822.

The ancient volume, its pages thick with a deep yellow from passing time, affords the opportunity of contrasting the Washington of today, "the city of beautiful," with the Washington of 100 years ago, typical of the modern-day "condemned town," a picture rather difficult of visualization.

The book, listing 2238 names, contained the addresses of permanent residents, which were approximately rather than specific as seen in the city directory of today. It also listed the residential addresses of United States senators and congressmen, most of whom lived in humble boarding houses.

Persons listed in the book who subsequently became prominent in American history included Martin Van Buren and Rufus King, United States senators from New York. They lived at Peck's Hotel in Georgetown, a suburb of Washington today. Peck's seemingly was a sort of political headquarters for national legislators, among the members of the house listed as residing there being Daniel Edwards, Pennsylvania; Benjamin Gorham of Massachusetts; Lewis McLane of Delaware, and Henry R. Warfield of Maryland.

The directory shows that as late as 1822 several states were represented in congress by "delegates." They included James W. Bates of Arkansas, who lived at "Mr. Hand's" on Pennsylvania avenue near Twelfth street; Mr. Fernandez, in Illinois and residence not given; Solomon Shibley of Michigan, "located with Mr. Tucker, opposite Central

## FISTICUFFS ONLY FIGHT OF WAR

Veteran Tells of Reaching  
Mexican Front Too Late

PRINCETON, Ky., June 2.—The story of the organization of Company G, Fourth Kentucky Infantry, for service in the war between the United States and Mexico was told here by James Mitchell, 97 years old, the last surviving member of Company G.

"Private Mitchell" gave the following story with reference to the organization of Company G and his part in the Mexican war:

"First, I must make a confession. The only real hard fighting I did during the war with Mexico was in camp at Vera Cruz. Dick Hanks, a messmate, came at me to capture my goat, we clinched, I felt my way to his eyes with my right index finger. John Hanks, another messmate, and brother Dick, pulled us apart. That was my battle.

"I was 21 years old in July, 1847 and, with Henry Cook, Joseph Cook, Erasmus Pickering, James Keener, John Hanks, Dick Hanks, Sam Hanks, James Keener, a Mr. France and other Caldwell boys, sufficient in number to constitute the full regulation company, volunteered, were organized and organized into Company G of the Fourth Kentucky Infantry. Capt. Cobb was elected as officer in command.

"Under orders from the front Company G proceeded to New Orleans by boat, and took shipping there for Vera Cruz. At New Orleans unofficial recruits arrived by courier stating that Mexico City had capitulated. No countenance or announcement of peace declaration came and we proceeded to Vera Cruz. On our march to Mexico City we saw the mute evidence of war's horror inflicted upon

that country. Our travel was unmarked by extraordinary events except a plague of measles which took heavy toll from our ranks.

"We approached the city after nightfall, we got our first positive confirmation of the surrender report in the brilliant illumination, songs and shouts of the people. Nothing eventful marked our return trip and disbanding. That was in 1848. The sole survivor of Fourth Kentucky Infantry and Company A lives in Indiana. I do not know his name or address. I stand the only living representative of Company G."

ONE OF THE BIG FIVE

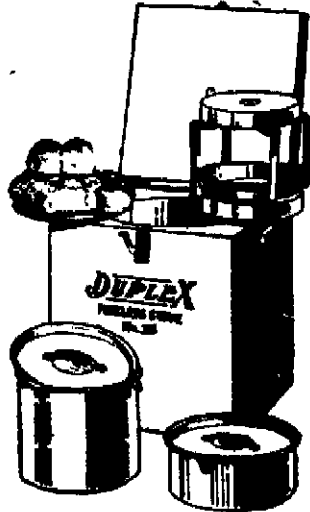

## DUPLEX Fireless Cooker

It cooks the entire meal, bakes and roasts brown. Convenience, better flavor, economy, the three essentials of the fireless cooker are pronounced in the Duplex. Just a few minutes to prepare the food and heat the disks and then all thoughts of cooking may be forgotten. The food is more appetizing, the food is more easily digested. It means economy all year around, it means a cool kitchen in the summer. The heat sealed inside cooks the food, not you. It saves its cost in a short time.

Its superior features are: Deeper Wells, More Aluminum Cooking Vessels, Adjustable Cover Catches, Steam Vent in Steel Outer Casings, Aluminum Lining, Cover, Separate Cover for each compartment. Mrs. Hardy, demonstrator in charge

# WHO'S BRAVEST IN THE WORLD

## Greatest Hero Resident of Port Arthur?

Who is the bravest person in the world?

What trivial thing is he—or she—afraid of?

The greatest hero may be someone in Port Arthur, a soldier, a nurse, a worker, a mother, or even a child.

Here are three candidates picked at random. The soldier, despite his courage on the battlefield, confesses a private fear. A woman of heroic devotion is afraid—sometimes. A boy, whose bravery is in his rise over physical handicaps, fears other things.

What kind of hero are you? Here are two different types:

### The Man

Maj. Gen. Adrian Carton de Wiart, a Belgian in the British army, considers himself one of the world's luckiest men. His friends call him one of the bravest.

Although he has faced death hundreds of times, he says he is a coward in this respect: He fears the camera.

During his army experiences which extended from the Boer War in South Africa to every battlefield of the World War, De Wiart lost an arm, an eye, part of a thigh, and has been operated on fifteen times. He has won numerous decorations.

He won the Victoria Cross at the Battle of the Somme. When some British units had been cut off by the Germans, General de Wiart organized a group of stragglers, inspired them with his own courage, and led them to the rescue of their hard-pressed comrades. He succeeded. But during the withdrawal he was severely wounded.

When he recovered in the hospital, the physicians decided that he had had enough. They wanted him to retire from active service. He refused.

"Why should I retire?" he declared. "It is true that I am a limb or two short, but I am as good as ever."

And now he says: "A photographer makes me nervous."

### The Woman

Mary Buhner, 20, is the only girl in America awarded both the Carnegie medal for literary and the American Red Cross bravery trophies.

Although instead of death, she confesses fear of college examinations.

Last year she went swimming in Tampa Bay, Fla., with Dorothy McClatchie, her chum. Both were expert swimmers, and went away out.

Suddenly Miss McClatchie separated. Something was pulling her down. Miss Buhner grabbed her. A barrage had attacked her friend. It was a fight against death a half mile from shore.

Swimming in a pool of blood Miss Buhner started towing the dying girl to land. Around her were a school of sharks. But the girl kept on, undaunted, murmuring words of encouragement to her companion, and brought her to shore.

For months after, Miss Buhner was a nervous wreck. Now she is attending college as a protégé of St. Peterburg, Fla. literary club and Chamber of Commerce.

She says: "I'm horribly afraid of examination day."

### The Boy

Although he never did anything spectacular 12-year-old Joe Swedock of Meriden, Conn., is known in his home town as the "luckiest boy in the world."

When he was four, he lost both legs in a train accident. Physicians said he couldn't live long. But Joe grinned his teeth, and said he wouldn't die—and he didn't.

His family wasn't well off. Conditions became worse when his father died a few years later. There were six children to support, and Joe wanted to do his share. But he couldn't help much.

Then his mother died, and crippled Joe was left to mother his five little brothers and sisters.

People suggested orphan asylum, but Joe indignantly refused to hear of it. He went to work, distributing papers, promoting boxing matches, selling sandwiches and soft drinks at baseball games.

Joe went to high school, too, hoping some day to become a lawyer. His pluck won him the admiration of the town, and when he found he would have to abandon these plans, 20 men subscribed \$1000 a year for three years to help send Joe and his brothers and sisters to school. Fraternal organizations have staged benefits, and Joe is happy.

But Joe is afraid of one thing. "Rain," he says, "or rain hurts business."

## Commuter Has Traveled 400,000 Miles And Hasn't Yet Missed a Single Train

Mrs. Anna Trenchard

PHILADELPHIA, June 2.—Speak of enduring love, consider Mrs. Anna Trenchard, champion commuter of the east coast.

Every morning for eight years Mrs. Trenchard has commuted from Philadelphia to New York. And she's never missed the train.

The circumstance is all the more remarkable because it is a 7 o'clock train which Mrs. Trenchard catches and heretofore there have been certain little matters of getting the house in order and setting out breakfast for two young sons before she has hurried down to the station. But never has the train pulled out of the station without Mrs. Trenchard being comfortably settled in the green plush chair of the Dr. Talbot Williams' collection of the "Faintest Williams' collection."

When the collection was moved to New York to become a part of Columbia University, Mrs. Trenchard went with it.

But more to New York to be married her job? Never.

Desirable as it might be to work in New York, Mrs. Trenchard still realized that Philadelphia was the ideal place to sleep in.

So one by morning at 7 she boards the train and is whisked over the 30 miles intervening between home and business. The day's work done she is whisked back again.

Four hours a day spent in traveling? Summed up it means that Mrs. Trenchard spends two months a year clumped up in a railroad coach.

One hundred and eighty miles a day? In a year Mrs. Trenchard could go around the world twice and probably have enough mileage left over to land her in Steubenville, Ohio.

But what is a mere matter of 150 miles a day to a woman who wants her own way about it?

"I don't waste a minute," she maintains, "and what's more, other women I see traveling don't waste a minute either. On the way over in the morning I mark my papers. On the way back at night I relax and rest my eyes."

"Other women that I see are either knitting or sewing or reading some

# SATURDAY NIGHT

WHILE mother was shopping in one of the stores on Austin street, between Procter and Fifth streets, little son, who was just big enough to get around by himself, became impatient at her delay, followed a customer out of the store and wandered down the street toward Fifth. Coming near a jewelry store, he was attracted by the "pretty things" in the window. But as he was doing his own window shopping, mother came out of the store further down the street, her anxiety for son's whereabouts having reached a high degree when she found that he had left her side.

"Did you see a baby come down the street?" and as she asked the question she sped away leaving the display window preparatory to resuming his wandering.

Despite his insistence to travel alone, mother picked him up and the little man continued his journey in her arms.

WITH two ice cream cones in one fist and a third in his other paw a dirty-faced seven-year-old youngster strutted on up Austin street toward Fifth about 9 o'clock Saturday night, followed by two apparently "uninvited friends."

"Remember when I lived on you?"—one of his followers reminded him, and "Wait till you ain't got no money," the other put in. But the ice cream had been deaf to all threats or proffered recollection.

IF you Catholics must sit close to your object of love, don't try to violate the laws of equilibrium or balance. If you wish to avoid the following incident:

Walking along one of the by-way streets of the city around "gelling time" Saturday night, the reporter was aroused from his mental musing by the noise of some falling object.

Gazing in the "dark" direction whence the noise came, his eyes beheld a fallen swing on the porch from which two young people were trying to liberate themselves.

# SHRINERS CHOKED ROADS TO MECCA

200 Special Trains to Reach Washington Today

WASHINGTON, June 2.—All roads to Washington tonight were reported choked with Shriners trekking to Mecca. With the arrival here tomorrow morning of Imperial Potentate James McCandless of Aloha Temple, Honolulu, Hawaii, and his escort, the convention will be fairly under way.

Final preparations for caring for the incoming delegates converging at the capital by automobile and special train were tonight announced complete by the Almas Temple committee handling arrangements.

Fully 300,000 visitors are expected. An elaborate program, parade, aerial demonstrations, military maneuvers, aquatic performances and other entertainments have been provided.

The city is in gala attire with Pennsylvania Avenue converted into a brilliantly illuminated road to "Mecca," with thousands of red, yellow and green lights.

Before the White House stands the Garden of Allah, grotesquely wrought in great Egyptian columns copied from the Karnak originals.

Harding to View Parade

In the garden the president's reviewing stand, from which he will watch the miles of bearded marchers troop past and from where he will waive fraternal greetings.

Anticipating a larger attendance than now promises to come the Shriners committee has listed approximately 400,000 rooms throughout the city, contracted for acres of parking space for automobiles and leased entire ranges.

Over 200 special trains are scheduled to all into Washington in the morning.

Colonel Simmons, who occupied a suite in the same hotel with Dr. Evans did not attend the meeting of the klonechum and left the hotel soon after he received word of the action. Spokesmen for Dr. Evans said they expected Simmons to fight the creation of the new women's Klan.

Headquarters of the body will be at Little Rock, Ark., where an organization meeting will be held within a few days.

# DIE IN MODERN SODOM

TORONTO, June 2.—Six persons were burned to death today when they destroyed the home of Sins Sins in the village of Sodom near London, Ontario.

# RAIL PURCHASE BLOW TO FRANCE

British Isolate Tri-Color in Near East

NEW YORK, June 2.—The reported acquisition by a British group of the controlling interest in the Baghdad railway, signifies a rapprochement between England and Turkey, and the almost complete political and economic isolation of France in the Near East.

In fact, with the failure of the French-backed "Haque Idmudhelle" in China last year, France's influence is tottering throughout the Orient—another reason why she must now concentrate her attention upon the problems in Germany.

Shrewd German Move

By a shrewd move—the cooperation with a Swiss bank—Germany prevented the reparations commission from disposing of the controlling majority of the stock of the Baghdad railway and of the Anatolian railway in Asia Minor.

In view of the fact that the French command a majority in the reparations commission and that the question of the Baghdad railway is of extraordinary interest to Britain, the foreign office in London adopted the course of cooperation with the Germans in this question. Ever since

# First Blow to France

The first blow to France came when the Turkish grant of American interest they by now well known Chamber conference. This action was inspired by the unanimous preference of the Turks for American co-operation, but one of its motives was also the resentment felt against France for what the Turks considered her over-shifting and unreliable attitude at the Lausanne peace conference.

Meanwhile, England, profiting from the estrangement between France and Turkey, effected a change of front, by adopting a friendlier attitude toward the Turks. On the other hand, Janet Pasha realized that his country could not afford to antagonize England permanently, especially in view of the secret maintained by the Chamber group in regard to the nature of their financial backing an attitude which disappointed the Turks.

5 Gallon lots .... \$1.85 per Gal

50 Gallon bbls. .... \$1.50 per Gal

The cost per acre of killing Johnson or Bermuda grass will be, where it is sold from \$12.50 to \$15. It should be applied like a heavy dose of light, shower of rain with any force or air pressure spray. Every farmer should take advantage now and kill out all spots of grass while he can do it so ruinous less expense and save his fields or farms from being sold out. Lard can be planted in any crop with safety 10 days after spraying. Persimmon or Sassafras sprouts, while young and tender, can also be killed by spraying the tender tips thus causing the stools to soon decay and rot out. This can be done at a very small expense and save the chopping year after year. Sold and distributed by

said, as was every police officer in Port Arthur, description of the suspect being given as furnished by the Retail Merchants association.

Checks in each instance were identical with exception of the name, police report. A different name was inserted on the check in the space after "Pay to." The name in the case of the Denton check was "Sam Smith," officials in the store said.

Dentons Victim

Merchants here said the man claimed to have been employed by the Texas Company here, but that he had just arrived in the city and had his pay check from his former employer at the Prairie Oil and Gas company.

Recurrent relations also were given wordless checks on payments for purchases made there, according to the store's statement.

Corroborating said, further investigation by Denton police into the check artist's operations in that city were launched immediately.

## "The World's a Stage" at Liberty

Something absolutely new in seven plot and characterization is offered in "The World's a Stage," which comes to the Liberty Theatre tomorrow. Trust the celebrated author, Thorne, of "Three Weeks" and "Mud and Mud," to discover in a novel way the screen has long needed a story which got away from the "learned" plot. "The World's a Stage" will surprise you with its out-of-the-ordinary plot. It is a wild, thrilling, and utterly unexpected story, starting in its denouement and will be talked about as the film sensation of the year.

The plot treats of the adventure of a stage star, leading a cheap, dissipated life, whose performance of a play is so fine that it attracts the attention of a movie producer and a wealthy man. The producer, who is a girl, uses his influence with the actor in getting her a contract. Her star is in the ascendant, but as happiness is due to her, it is longed for by the producer, who is disappointed when she discovers that her last marriage is not a success.

rest. And for those who are not moved by the pathetic moments there is an abundance of whole one comedy. Goldwyn is presenting in this a view of Jewish family life with stress upon the struggle of the immigrant for success in America. It has been produced in close sympathy with the dreams and actual experiences of the Russian immigrant, so that the poetic finds frequent expression.

The story gives generous opportunity to many performers without tiring any one artist. Rosa Rosanova's (great Russian actress) handling of the mother role is very impressive. E. A. Warren, Helen Ferguson, Bryant Washburn and George Shegani are all well cast and give good performances.

"Hungry Hearts" will be the feature picture today and Monday at the Pearce theatre.

**HISTORIC OLD FORT**  
When "The Tents of Allah" with Monte Blue and Mary Alden, known for her mother roles to all film fans, opens at the Pearce theatre Tuesday, there will be seen for the first time photographs of various walls and battlements in Mexico City. This old fort was built in 1521 and is now occupied by American troops. It is now the command of Col. Terry Ross.

Some of the walls of the old fort exceed 25 feet in thickness, making it possible for a charge of nearly a thousand Mexican horsemen to be started on the ramparts.

**CHILDREN IN SCHOOL PUSH THRIFT DRIVE**  
OAKLAND, Cal., June 2.—Thrift is spreading among the school children of this city. According to a report furnished to the school department.

A thrift campaign is started some time ago among the Oakland school children and the recent push made shows that more than \$200,000 is now on deposit by the children.

The deposits number 11,504 in the school banks.

Actual banks are now established in the high school, while in the elementary schools there is the "relaxation savings system."

Twenty classes in the Oakland schools have a 100 per cent ranking because every child saves in a school bank.

The United States has agreed to release her claims on Austria (which awarded her under the Treaty of St. Germain) these assets will be used temporarily as security for the league's new loan.

## POTENTIAL WEALTH OF COTTON

Aaron Sapiro, wherever he goes in the cotton belt states, tells of the potential wealth of cotton. Texas produced a crop of 3,000,000 bales last year. This placed in the hands of producers and others directly interested \$500,000,000.

Its potential wealth consists of the 75 cents per pound that accrued to spinners and others after it had left the hands of the grower. This estimate was made to the writer by Rogers W. Davis of Charlotte, North Carolina, representative of the Saco-Lowell shops, a \$25,000,000 manufacturing plant which turns out the machinery for cotton mills and which was established more than 100 years ago.

Rogers W. Davis is a native of Georgia. He is a product of the Georgia Tech. He graduated from the Georgia Tech 23 years ago. At that time Georgia Tech had an enrollment of 200. Now it has an enrollment of 3200 and Davis says it is to the cotton states of the southeast what the Boston Tech is to New England.

There are 175,000 spindles in Texas and the plant that Davis represents has furnished more than \$2,000,000 of machinery to Texas mills since 1903. But back to the matter of potential cotton wealth. After having been turned into the finished product, the 3,000,000 bales of Texas cotton produced in 1922 represented a value of \$2,000,000,000.

A fourth of this was paid to the producer who furnished the land, the seed, the labor and ran the risk of bad crop years, the pink boll worm, the boll weevil and other pests. If the \$3,000,000 bales of Texas cotton had been turned into the finished product by Texas spinners the \$2,000,000,000 would have remained in the pocket of Texas instead of only the \$500,000,000 paid to the growers.

Governor Neff, at San Angelo, predicted commercial supremacy for Texas as it turns into finished products by building cotton at 175,000 spindles by the side of cotton fields and the sheep and goat ranches. Texas with 40 miles of coast line and with the greatest production of agriculture and other resources of any other state in America can dominate the trade of Latin America. Unless she does she has failed to fulfill manifest destiny. One has but to glance at the map of the world to see that the divine hand which shaped the contour of Texas' coast line meant that this state should be vested with commercial supremacy of all the south, of Latin America, and of the Gulf of Mexico and the Caribbean sea.

Governor Neff called a spade a spade. He stated facts and he stated them bluntly when he said "the New England states had been made rich and powerful by the agricultural resources of Texas" and Texans were to blame. He reminded the vast throng of west Texans that in the economic history of the world that no people who gave all their time to producing ever became wealthy and that wealth has ever come with the manufacturing of the raw materials into the finished product. "This fits in to a 'T' with the potential cotton wealth emphasized by Aaron Sapiro and the estimate made by the technician from Charlotte. This picture painted by the governor is true to cotton life.

When the first tendrils of the cotton plant break through the soil to get its first touch of Texas air, the economic world is affected and the mercury of finance rises and falls in sympathy with the prospects of the Texas cotton crop. Yet the people of Texas permits her more than 3,000,000 bales of cotton, one-fourth of the cotton production of the world, to be shipped to the east to be manufactured into cloth. Texas pays a freight to the eastern mills and then buy goods manufactured from cotton grown in their own fields at the eastern manufacturer's prices.

And this is the gospel truth. Texans are showing signs of an awakening. There are a limited number of cotton mills in the state with a total of 175,000 spindles. All these mills have been successful. All are paying splendid dividends, yet there is one cotton mill in a Virginian town that has more than 5,000,000 spindles and every dollar of its stock is held by Virginians. Virginia money, pluck, thrift and vision made possible the success of the great enterprise.

There is one county in North Carolina with an investment of more than \$50,000,000 in cotton mills. The capital did not come from New England. It did not come from old England. It represents the earnings and the savings of the people of Gaston county. There is a cotton mill in Georgia. One of the largest in the South, and one of the most successful. Ninety-five per cent of its stock is held by Georgians and only five per cent by outsiders.

Go to Alabama, the most flourishing cotton mills as well as one of the largest dividend payers in that state, was established by Alabamians and they own all the stock. These facts were made known to Texans by Rogers W. Davis of Charlotte and L. W. Roberts, Jr., of Atlanta, who were members of the Texas Textile special party.

Four of the largest and most successful cotton manufacturers of the south began life as country merchants without special training in the manufacturing line. These were additional facts given to the people of Texas with the volunteered information that a superman or heaven born genius isn't required to make a success of the cotton manufacturing business.

Really the growth of the textile industry in the south is one of the marvels of the age. In 23 years the number of spindles in New England increased 40 per cent, the number of spindles in the southern states increased 320 per cent. This should be a true index as to the growth of manufacturing in Virginia, the Carolinas, Georgia and Alabama.

Governor Neff has sounded the slogan for Texas. No people can become wealthy who devote all their thought to the production of raw materials and neglect to manufacture the finished product.

**SORROWS OF THE GREAT**  
Col. E. M. House has sailed for the other side. He has been crossing the Atlantic ocean for 25 years but made his first voyage 58 years ago on the steamer Java when he was seven years old.

Col. House is for an international world court and he believes that it will be supported by a majority of the democratic senators at the next convening congress.

Then it will be on the principle that a half a loaf is better than no loaf. Col. House has ceased to be the mystery man of American politics. He has ceased to be a political throne or a man behind the throne.

Now it is said that the former Texas colonel and the former president of the United States are as frigid as two icebergs toward each other.

The same thing happened to the once famous Joseph Patrick Tumulty. Joseph wrote a book, then Joseph found himself without the Wilson pale. All great men have their trials.

Editors of 735 daily newspapers in the United States have declared for the Harding world court plan. Where were these editors in 1920 when the Wilson world court plan was one of the paramount issues?

## YOU AND I

## FIRES

Our Indians have five million acres of forests on their reservations, but only \$1500 damage was done to these woods last year. Uncle Sam reports. It's a safe bet that most of the fires were started by lightning or fire men.

The Indian is careful—every week of the year, not just during one week set aside by the president for forest conservation. He sure your camp fires are out. Never throw away a glowing cigarette or match in the woods. We are headed toward a timber famine. Majority of forest fires are due to carelessness. Remember the Indians and their fire record.

## MEXA

Mexican oil fields are "going to salt" (giving out) in some districts. But the petroleum resources shown there still are worth at least a billion dollars. It's estimated by the government in Mexico City.

Americans own three-fifths of the total.  
English own a third of the total.  
Holland has 71 million dollars worth as her share.

Mexico herself? She owns 1 per cent. Wonder how well that fits our natural resources were similarly cornered by outsiders.

## VALUABLE

The most valuable book in the world is a first edition of Virgil in the Princeton University library, claims George M. Peck, expert on rare volumes. This copy of Virgil was printed in Rome in 1470.

This is a Princeton employee, so his viewpoint is natural. But to our way of thinking, the most valuable book in the world is any copy of the Bible. It's still the best seller.

Among the books you own, which would you pawn last?

## BLIND

America has 5,000 fewer blind than it had 19 years ago. This is due, first to safety-first campaigns, second to improved attention to the eyes of new-born babies.

On the other hand, the nation's eyesight is getting weaker. You have noticed the increasing number wearing spectacles. We gain on one side and lose on the other. Such is life in our age of World Vaudeville.

## DOUBTHOBY

Only one American soldier remains on duty on the Rhine, according to Lieut. F. J. Davis, army detective, arriving from Europe. Davis declines to give the name of the lone remnant of the army of occupation. But he's probably an expert at keeping books—winding up the details. You picture him with tortoise shell rim specs, looking more like an efficiency expert than a soldier.

Hardly seems possible, but it's six years since the first doubthobys were rushed across the Atlantic. A big job and it took a lot of time. In the one American soldier representing us on the Rhine, there is something almost tragic, certainly historic. The last to leave. That's honor.

## PENSIONS

Pensions of civil war veterans who fought on the northern side, so far have cost Uncle Sam about \$407 million dollars. This year's bill will be around 221 millions.

That's quite an echo, considering that over half a century has passed since the Civil War ended. A war so long, so matter which side wins, the men from now future soldiers will be connecting pension to World War veterans. But when the world's war have enough money saved to pay pensions to start an army.

# Port Arthur Schools Ranks With Best in the State; Housing Problem Again

## PER CAPITA COST LOW AVERAGE

### Button of School Board Gives Enlightening Facts

Previous concern over the problem of housing the increase of over 1,100 children who will apply for admission in the Port Arthur schools in the 1922-23 term opens September 17 was voiced by Davis Button, president of the Port Arthur school board, in his address at the commencement exercises last Friday night. We know that the new buildings are not ready at the time the school opens in the fall, but we are doing every effort to take care of all children who will apply for admission," Button declared. "The buildings are badly crowded. The building population is growing daily. We have in sight 1,100 more students than we now have in attendance," he said.

### Button's Introductory Remarks

Members of the board are: Executive committee—A. S. Bailey, chairman. Teachers committee—Mrs. K. A. Young, chairman. Finance committee—Joe S. Park, chairman. Property committee—A. S. Bailey, chairman. Supplies committee—C. R. Stevens, chairman. Building committee—J. G. Glasgow, chairman. Health and Sanitation committee—K. A. Young, chairman. Text Book and Public Policy—H. J. Preston, chairman. Our school system has been making rapid strides the past several years, and it is the intention of your board to continue these developments to their full completion. As soon as the new buildings at Johnson and High school are completed, the course of study developed at Franklin, such as auditorium work, will be offered to the children at these schools. At the High School building the necessary equipment has been purchased to carry out the course of study for which the building was designed. 1100 More Scholastics

open in the fall, but we are making every effort to take care of all children of school age who will apply for admission on September 17, at school next term. We have in which is the date set for the opening night over 1,100 more students than we now have in attendance. The buildings are badly crowded. The building population is growing daily. The housing of your children next fall until the new buildings are completed is giving the board serious concern. We know that we cannot render you satisfactory service until the new buildings are completed. However, we shall study through the conditions and evolve the very best arrangement possible. We ask your sympathetic cooperation with these undesirable conditions until relief can be given. We are urging the contractors to use all speed possible without doing injury to the quality of construction. We believe that the contractors are doing their best.

"We are glad to announce that 99 per cent of this year's teachers that were re-elected for another year have accepted, consequently the school system will profit next year by retaining, which we have heretofore been experiencing together in the system to do so large an extent."

### Second in State

"The board recently has been making a study concerning the standing of our students in the colleges and the universities of Texas. We find that the graduates of our High school stand up well in these institutions. The investigation does not place our school anywhere near the bottom of the list in the state. Under date of May 10, the list of the largest High schools this year, the A. and M. College advised that of the nine largest schools of Texas, which includes Fort Worth, Houston, Austin, etc., Galveston's first in the general rank of schools with Port Arthur second. Galveston's grade was \$2.86, Port Arthur's \$2.11, Houston \$7.27 and Beaumont's \$6.56. The registrar of A. and M. College says, 'The students from your school are doing very satisfactory work, and in my opinion, they compare quite favorably with the students from the largest city schools.' 'It is too early at this time to tell you the per capita cost for this year. The per capita cost last session, however, was \$29.67. The figures include all items of expense except interest and sinking funds, and show that our school system is operating several dollars below the average per capita cost of the largest schools of the state. The Beaumont school system is

operating at above the average state cost. Figures for last year are not available, but two years ago their cost was \$54.00 per capita. Although our per capita cost is lower than the average, Port Arthur offers a number of subjects not included in the curriculum of many other school systems. As indicated above, colleges advise us that our students are well prepared to do college work. With the per capita cost being cheaper and the preparation of our students to do advanced work being satisfactory, it would indicate that our schools are not run extravagantly."

### First in Scholastics

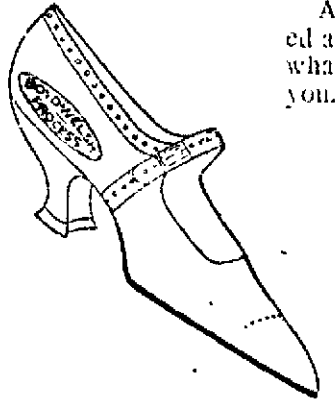

"In 1921 a study of the fifteen largest school systems in the state of Texas was made by the state department of education. In scholastic population Port Arthur ranked first, with 29 out of every 100 persons belonging to school age. In rank according to school tax for maintenance, Port Arthur was 13th of the fifteen. In rank for school taxes for bonds, Port

Arthur was fourth of thirteen. Relative to this item, it will be remembered that all young cities are paying for their equipment. Port Arthur's ranking according to the total school tax for bonds and maintenance is eleventh of the fifteen, our total here being 5th on the \$100 valuation. These facts would again indicate that our school system is being run economically."

"There has been some discussion in the community relative to the music department. I believe our plan, when understood by the community, will receive your approval. We do not propose to reduce our budget expenditure on music—in fact, we shall have one more teacher than was employed the past year. The music department has expanded as much if not more than any other school activity the past two years. Another teacher was added to this department at the beginning of the last school term."

We wish to expand the musical program at the High school, so our present plan calls for a full-time teacher who will be able to outline the musical program for our entire school system and who may develop glee clubs and mixed chorus programs. Any teacher who has made such a success with our school band this year, will

L. George Gives Eight Rules Essential to Bliss

LONDON, June 2.—Eight points on staying together were given by L. George in an address recently "Love and Marriage." They are: Don't open each other's letters—must not use the contents. Don't bore each other—change your conversation, change your interests; if you must, change your hair. If you absolutely must be frank, do it privately. Once a day to a woman, "How beautiful you are." Once a day to a man, "How strong you are." If you can't say that, how clever you are." because every one believes that. If it seems hard to be married to him, remember that "he" is married to "you." Find out on your honeymoon neither swearing or crying is more festive. Forgive your partner seventy times over, after that burn the account book. Marriage, he said, was the only insurance which delivered policies against loneliness, while it might also be described as having been invented to relieve men from the eternal necessity of falling in love.

## LANDS TWO BIG CATFISH

HAMMOND, La., June 2.—In the matter of large catfish, Louis Needham, mechanic employed by the city engineer, takes the lead of the class. Needham did not think that he would have much luck when he picked the Picklaw river as the stream of his choice, but he surprised himself and his friends by finding two extra large ones, tipping the scales at 62 and 25 pounds for the big fellow and 25 pounds for the smaller.

In a sparrow's nest examined recently were found, among other things, an old railway ticket, a safety pin, half a cigar, a small buckle, the finger of a kid glove and nearly half a yard of bandage.

## Rivals Venus

Miss Ellen Kerner, 20 East Northport, N. Y., said by noted artists to be the only possessor of the perfect profile of pure ancient Greek type. She has light hair, blue eyes and a pink and white complexion.

## THIEF FRIGHTENED OFF BY JAPANESE PASTOR

SEATTLE, June 2.—The collection boxes of the Japanese Baptist church were saved from a thief by the unexpected entrance of the pastor, it was reported to the police.

The intruder forced open the front door of the church, but was frightened away before anything was stolen.

Natural gas wells are in depth from 100 to more than 400 feet.

# TRUANTS SLEEP UNDE RPORCHES

Police Uncover a Pair of 'Huck Finns'

PHILADELPHIA, June 2.—Young "Huck Finns" of this city have discovered a new way in which to eke out an existence in defiance of home ties, truant officers, and such. Police recently discovered three boys living under the front porches of vacant houses who had been leading that novel life for nearly two weeks. Food was obtained by surreptitious removal of early morning milk, bread and rolls from doorsteps. The porch paradise was found to be furnished with many small household articles, such as clocks and small stools. Robes taken from parked motor cars provided warm sleeping accommodations while money was secured by a supply of stolen jewelry. Everything was arranged so that a hasty exodus could be made if the owners of the house appeared. The boys—William Clark, 12; Jas. Kinsella, 10; and Thomas Brown, 11, were sent to the house of detention by the police, who are now making an investigation of all porches of empty houses to see how far the practice has spread among children of school age.

## TO ORGANIZE LIONS CLUB

LULING, June 2.—Vilas Johnson, field director of the Lions International, was a visitor in Luling Thurs. day for the purpose of directing the preliminary steps in the organization of the Luling Lions club. Mr. Johnson appointed Mayor C. T. Greenwood and Albert Taylor chiefs to have charge of taking the names of prospective members and the intends coming back within the next 10 days to complete the organization work.

One hundred twenty-five thousand wounded ex-service men of France will get government jobs as a result of a bill just passed by the French.

## Historic Island Issue In Slav Suit at Law

BELGRADE, June 2.—Lacroma Island, where Richard Cœur de Lion was shipwrecked when he was sailing up the Dalmatian coast from the Holy Land, figures in a lawsuit recently heard in the Jugoslav courts. The little island, which lies about half a mile from the shore of Ragusa, has had a romantic history. Richard Cœur de Lion built a monastery on it in gratitude for being saved from the sea. More recently it has had two unhappy royal owners, Emperor Maximilian of Mexico and the ill-fated Crown Prince Rudolf of Austria.

Princess Rudolf's daughter, Elizabeth, received the island as a part of her dowry when she married Otto Windischgratz, who is concerned in the recent legal proceedings. The town of Ragusa attempted to have the island transferred to the state according to the treaty of St. Germain. But Princess Elizabeth, the owner, who is living divorced from her husband at Baden, asserts that she is no longer a member of the Hapsburg family, as she renounced all her rights on the occasion of her marriage. The claim of Ragusa was based upon a precedence case heard in Czechoslovakia in which members of the Hapsburg family lost their property. The claim was upheld and rejected successively by two courts, but before it had time to go through the highest courts Princess Elizabeth relinquished all her rights in the island for the sum of 125,000 pounds, which was paid by the state.

## ARCHITECTURE LURE TO MANY FRENCH WOMEN

PARIS, June 2.—Women here are taking up architecture as a new profession. Of 50 successful competitors in a field of 400 in a recent competition for entry to the school of fine arts, four girls were received in the section of architecture. One girl, Mlle Bachmann, ranked first on the lists.
